

WHO WE ARE

We are a commercial laundry lender with a focus on providing the most-up-to-date laundry technology, superior service and unparalleled customer care.

SERVING YOU

Regardless of the size of your laundry rooms, whether it is two machines or two hundred, we work closely with you to determine the best solution for your laundry program. C&G's consultative approach to laundry provides you with well-researched options by meeting with you, touring your facilities and learning about your specific resident needs.

We partner with leading laundry technology vendors to provide you with flexible payment options. Our Preventive Maintenance and Service programs keep your machines running so your residents are always ready to do laundry. You, the customer, are our number one priority. Our sales staff, technicians, dispatch and even our President are here to serve you.

VALUES AND GOALS

We strive to exceed our customer's needs and expectations in a timely manner with honesty, integrity and attention to detail. Our focus is to build long-standing relationships by providing consistent, quality products and services.
